

Exhibition Coverage

Why Entrust Us with Your Exhibition Insurance Needs?

Assembling objects for a major exhibition is a complex, costly and time-consuming undertaking. Whether you are a curator arranging an exhibition at one venue or an event planner organizing a worldwide touring exhibition, we understand the complexities and risks associated with this intricate process, such as transit damage or damage during installation.

Our exhibition policy is designed to provide insurance protection for a wide variety of exhibitions including traditional art, tribal collections, technology-based art and historic objects. Our creative insurance solutions are crafted to address the concentrations of movable property in a single location. Additionally, our policies are flexible and can be tailored to the individual needs of your organization and to the specifics of each exhibition to avoid costly gaps in coverage.

What You Can Expect

As a member of the Tokio Marine Group, our team of highly experienced and knowledgeable underwriters, claims handlers and art market experts have built a worldwide reputation on the professionalism, availability and responsiveness provided to each of our clients. Our global network of professional partners and resources allows us to support our clients with all aspects related to the protection of their valuable and often delicate objects in public spaces, as well as the challenges of transporting owned and loaned objects worldwide.
