Commercial Drone Insurance

The Sky is the Limit, Not the Coverage

TOKIO MARINE HIGHLAND

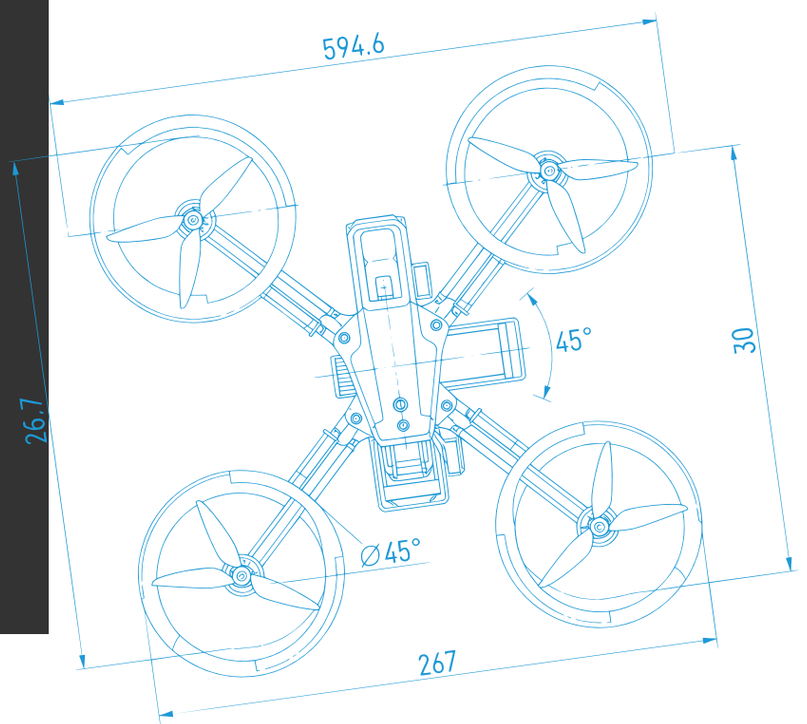

BoomAIRang

BoomAIRang Commercial Drone Insurance delivers comprehensive protection for your clients' unmanned aircraft systems (UAS) fleets, spares, operators, and livelihood in a single, streamlined policy. Designed for commercial drone operations, BoomAIRang offers some of the highest combined drone and payload weight limits available. Through its quick quoting platform, brokers can receive certificates issues in real time, insure up to 100 drones per fleet, and benefit from outstanding claims service.

With broad coverage, high liability limits, and worldwide geographic capabilities, BoomAIRang eliminates coverage gaps found in many drone insurance policies. An extensive range of endorsements offer further flexibility to tailor coverage to the evolving demands of commercial UAS operators.

BoomAIRang's commercial coverage insures UAS with combined drone and payload weight limits up to 440 pounds, providing up to $250,000 in coverage for physical damage to UAS, up to $500,000 for spares and ancillary equipment, third-party legal liability up to $10 million, and digital asset loss protection, and personal and advertising injury coverage.

Clients that choose BoomAIRang can expect comprehensive commercial drone coverage, risk-based pricing, and outstanding customer service support. With BoomAIRang, your clients can be confident that they're purchasing the superior insurance protection they need to succeed in the sky.
